

## Product Line Summary

- Completely Safe for all kinds & ages of concrete
- Completely safe for pets
- Non corrosive on hands
- Effective to -31°C
- 85% less corrosive than Ordinary rock salt  
Requires less product than any other blended product on the market to maintain a safe environment

## PRODUCT CHARACTERISTICS

Deicit™ is a combination of a naturally derived organic accelerator, a proprietary corrosion additive and pelletized salt. Together they accelerate melting down to -31°C and reduce corrosion by 85% versus rock salt. Deicit™ is designed to be safe for the environment and safe for pets. Deicit™ meets these requirements by providing predictable results under many conditions. Deicit™ is a granular product that significantly improves de-icing, melts faster, is less corrosive, and reduces overall environmental damage from winter maintenance, compared to conventional ice melt formulations.

Deicit™ may be used to pre-treat a surface or to deice. Deicit™ effectively works at lower temperatures and requires less material to maintain a safe environment than any blended product on the market today. Deicit™ will melt 18% more ice versus rock salt at -10°C, 88% more ice at -20°C and 100% more ice at -31°C. Testing was performed using Method SHRP H-205.2. The product will not leave any insolubles or smelly residue. Its unique structure and composition prevents the product from tracking but more importantly every granule contains our proprietary corrosion inhibitor.

## TYPICAL ANALYSIS

### Physical Properties

Appearance	Green, odorless granules
Odor	None
Bulk Density, gm/litre	858
lb/ft <sup>3</sup>	53.5

### Chemical Properties

	Limit	Typical
Sodium Chloride, as NaCl %	96.0 – 99.0	96.0
Organic accelerant	2.5 – 3.5	3.0
Insolubles, %	0.5 Max	0.1
Corrosion Inhibitor, %	0.5 – 1.2%	0.8
	0.5 Max	0.3

## APPLICATIONS

Deicit™ can be used in any application that requires rapid ice and snow removal. Recommended for parking decks, parking lots or anywhere where corrosion is of concern.

## AVAILABILITY

Deicit™ is available directly from Andemar in bulk truck shipments or convenient 2000lb, 1000lb super sacks or 50lb bags

## PRODUCT SAFETY INFORMATION

As with any chemical, Deicit™ requires care in handling. Anyone responsible for the procurement, use or disposal of this product should familiarize himself and those handling it with the appropriate safety and handling precautions. This information is available in Material Safety Data Sheets, which may be obtained from our Customer Service group.

Deicit is certified Pet Safe. Andemar employed Dr. Elad Rosenfeld DVM and Dr. James Templeman PhD, both who are associated to the University of Guelph. The study was performed on 30 sled dogs to observe any ill effects to their paws over 5 days and any negative effects if they ingested any Andemar Deicit. No ill effects were observed on any of the animals.
